

CORE Asset Management

Panasonic Connect Canada provides a one-stop service for all your IT needs, from innovative cutting-edge hardware and industry-leading warranty support to professional services and complete life cycle management.

CORE Asset Management from Panasonic Connect Canada allows real-time management of all the assets in your fleet, whether Panasonic-branded or otherwise. Non-Panasonic assets can be added via flexible subscription options, ensuring your full asset portfolio is managed in one place.

From rugged laptops, 2-in-1s, digital displays, and smartphones to software licenses and consumables, we provide a single pane of glass to view and manage all your assets. It's one platform for total control, right at your fingertips.

Built for How You Work

CORE Asset Management allows corporate, public safety, and municipal, provincial and federal governments to move beyond cumbersome spreadsheets, offering a modern, streamlined approach to fleet management.

- Full life cycle management
- Manufacturer and product agnostic
- Extensive customization capabilities
- TOUGHBOOK repair ticketing system integrated
- Flexible subscription options to enable any other hardware or non-hardware assets

Why CORE Asset Management?

Access and Manage on the Go

Intuitively designed, mobile-friendly portal and app

Stay One Step Ahead

Notifications to monitor expiring warranties, low stock and status changes

Configure to Match Your Needs

Customizable quick-view dashboards, extensive reporting, customizable asset attributes, and user-profile management

North America Wide Engineering & Technical Support

Variety of professional services available including custom consultations, configuration, and data population

One Platform. Total Control.
